**Wisdom in Nonsense** -  
Heather O'Neill 2018-02-01

I broke all the rules that my dad gave me. It was he who had given me, in part, the confidence to think of my life as being worthy to mix with those of the geniuses.  
—Heather O'Neill With generosity and wry humour, novelist Heather O'Neill recalls several key lessons she learned in childhood from her father: memories and stories about how crime does pay, why one

should never keep a diary, and that it is good to beware of clowns, among other things. Her father and his eccentric friends—ex-bank robbers and homeless men—taught her that everything she did was important, a belief that she has carried through her life. O'Neill's intimate recollections make *Wisdom in Nonsense* the perfect companion to her widely praised debut novel, *Lullabies for Little Criminals* (HarperCollins).

Dear Sir, I Intend to Burn Your Book - Lawrence Hill

2013-03-20

Censorship and book burning are still present in our lives. Lawrence Hill shares his experiences of how ignorance and the fear of ideas led a group in the Netherlands to burn the cover of his widely successful novel, *The Book of Negroes*, in 2011. Why do books continue to ignite such

strong reactions in people in the age of the Internet? Is banning, censoring, or controlling book distribution ever justified? Hill illustrates his ideas with anecdotes and lists names of Canadian writers who faced censorship challenges in the twenty-first century, inviting conversation between those on opposite sides of these contentious issues. All who are interested in literature, freedom of expression, and human rights will enjoy reading Hill's provocative essay.

argue lucidly that immigrants' propensity to organize stems from social isolation. Many of the contributors highlight a specific ethnic group and special labor niches, such as the dominance of Punjabi in the New York City taxi industry. Each case study examines efforts beyond the conventional unions to organize the immigrants, such as worker centers and independent syndicalism on the job. An essential text for courses in labor-relations and immigrant studies, the book takes into account the latest debates in the fields of labor studies, urban studies, sociology, and political science.

Education and Training for Rural Transformation - WANG Li 2016-04-01

This book explores how education along with training and skill development are vital to building a sustainable future. While half of the world's population now is urban, in Sub-Saharan Africa and South Asia, the proportions of rural people range from 55 to 70 per cent. In this context,

education is seen as a key instrument for shaping and fulfilling the goal of rural transformation. The book focuses on the links between education and rural transformation, seeking to underscore the inexorable forces of change rural communities face and how education and training, by equipping people with appropriate knowledge and skills and fostering values of human dignity, can expand their choices and capabilities to exercise these choices. UNESCO International Research and Training Centre for Rural Education (INRULED) decided to examine closely the issues of skill development within its broad mission of exploring concepts, policy and practices in education for rural transformation. The confluence of global forces and national situations, especially in the poorer countries and regions of the world, prompted UNESCO-INRULED to take this decision. These forces and factors include persistent and growing gaps between supply and

*Boyle-Breath* - Murray L. Peters 2013-12

Teacher Mr Bernard Boyle (aka Bernard0 B0ilinni Ringhi0 di R0ssi of the Orb Zeronia) was almost out of breath, but never of magical Boyle-Breaths - good and bad! ('BOYLE-BREATH' - Bk1). Bernard had just been made Acting Head at Roquefort High School, and Bernard0 had saved a teenage school suicide 'jumper' off Roquefort's infamous '3Rs' bridge, its

Rogue-Rapids Roadbridge; but at the action-packed end of Bernard's first term as a Depute Head ('BOYLE-BREATH BREATHEs' - Bk2) the High's Mr Damien Mortenson had resigned. Aaron Brown somehow had survived; but Damien had had enough, especially his having found out that school bully-chief Nikki Dedson's evil-mentor Cameron Mitchell was his own (previously sent for adoption) son! Quite why Dedson's helper-in-chief Aaron Brown had tried to kill himself was a secret known only to the Bernards and the boy himself. A new school term beckoned, so schoolchildren and their families did too (indeed Boyle's half-Zero children Rino and Zea were now both 13 - younger Zero girls catching up with '0' brothers in actual human age as well as the usual intelligence and behaviour). Bullying was continuing also; séances, ghosts and vampires, dream-haunting and clinical depression - but murder? Social Workers, they're always about somewhere, always for

the best yeah? Immigrants and gypsies, angels and devils, tattooists and em referees? IEDs...! (But what if that Time-shifting sniper Mortenson had been able to pull the trigger on Lady Di...; what if the Confederates won the American Civil War...would Abraham Lincoln have become a Vampire Slayer? That 'Butterfly Effect' theory, Ray, does it hold truth? Really, really?) Father Stephen O'Reilly, what of him...a Time-travelling priest? Bless me Father!! Remember HIM &HER? Mm well of course you do! What if Richard and Faith decided to get married and tell everyone everything in the end?! Nikki Dedson: the Bully extraordinaire? Yes, he's still alive, but he's in two worlds now. Is he still a bully? Of course he is, and in both! Boyle-Breath is a stinker, but with all those earthly pongs and perfumes at his beck and call he could, he had, and he would continue to help change noses, minds, lives, worlds! What was Mr Boyle to do first though? How was his Zeronian

**Pollution at Sea** - Baris Soyer 2013-06-07

A sharp, informed and thoroughly practical guide to contemporary and developing issues relating to sea pollution, prepared by leading academics and practitioners with everyday hands-on experience. *Pollution at Sea* focuses on a number of the vital private law issues - compensation,

insurance, contract and tort - thrown up by contemporary developments in the law of pollution. The book also intends to offer a critical analysis on emerging public law concepts, such as the legal position of seafarers from the perspective of criminal law in cases of pollution and the impact of port state control as a pollution control mechanism. *Pollution at Sea* is divided into three parts: 1. Private Law Liability Regimes 2. Rights and Liabilities of Particular Parties 3. The Impact of Public Law on the Actors Concerned In part 1; various liability regimes are dissected, including those which have been under the spotlight in recent years. This section has particular international appeal, and many of the regimes discussed are based at least in part on international conventions, agreements or practices. In part 2; the impact of pollution at sea on third parties is considered, with respect to the legal position of parties that might be perused either by the victims of pollution incidents or

action. Finally in part 3; recent  
relevant developments,  
particularly in the realm of

public law are covered.
